Dear Readers,

'Vocational education build self-confidence and leadership skills by allowing students to utilise their unique gifts and talents'. – Conrad Burns.

Greetings from J.J.I.T.I

Jeevan Jyothi Industrial Training Institute is a long-established institution in the Drizzling town of Honavar. The institution was started by THE BROTHERS OF HOLY CROSS in the year 1984 for the rural students. The motto of this institution 'Let your light shine' turns out to be a torchbearer to lead, guide and form the students who are with genuine faith entrusted to the care of our committed staff and faithful management. I am obliged to thank the brothers who had joyously rendered their sincere service to this great institution over the years. The staff of JJITI are extraordinary gentlemen and women who consciously make a sincere effort to care for the students. The staff through their creative teaching disseminate the values, morals and ethos in the life of the students.

The staff have come out with a new ingenious creation called DRIZZLE. It is not merely understood as a downpour of a hail of bullets or soft falls from above. Instead, it is a metaphorical term used to share with you the genuine efforts taken by the staff and students. Drizzle is a newsletter which comes into your hands broadcasting the information of the learning style and skills of the students and the staff of JJITI. The new innovative idea of bringing out this newsletter has taken shoot in the minds of the students and the staff. I appreciate their genuine interest and idea of research with a praiseworthy intention of sharing something with the society through this newsletter 'Drizzle'.

It is believed that the great personalities of the world are from rural background; for good thoughts, good stories and novel ideas are born mostly in the villages only than in the shimmering dust of the big cities. I am obliged and immensely happy to inform the readers that this 'Drizzle' is the collection of simple thoughts of our humble students of rural background. It would surely conquer the hearts of numerous readers. I make an appeal to you to sit back, relax and browse through leisurely and feel the taste of the Drizzling town of Honavar and JJITI.

- Bro. Antony Raj CSC
Director

HISTORY IS WRITTEN

Bro. John Joseph

Dear Friends,

A new history is written in the Church using lithographic crayons which will remain shining and glittering forever as stars in the sky. The Congregation of Holy Cross practicing fraternal partnership in our ministry and mission right from the inception of our society were demanding and requesting the Holy See to elect a non-cleric to be the superior general of Holy Cross. The plea was granted by Pope Francis in the year 2019 in his "rescriptum ex audientia" said that the Vatican congregation overseeing religious orders can, in individual cases and at its own discretion, grant permission for non-priest religious members to assume the role of major superior.

Hence, the major superiors and the delegates who gathered in Roma for the chapter have elected Bro. Paul Bednarczyk CSC as the superior general of the congregation of holy cross on 1 July 2022. I would like to quote the words of this humble brother after his election on July 1.

"I am humbled and grateful for the confidence and trust of my brothers in Holy Cross for allowing me the privilege to serve as their Superior General,".

God always chooses the humble servant to carry out his mission. I am sure that this humble brother will be a torchbearer to the society of Holy Cross in the next six years or more.

As I congratulate our superior general. I would like to place my best and prayerful wishes to the new team Fr. Emmanuel Kallarackal CSC, Bro. Prodip Placid Gomes CSC, Fr. Andrew Gawrych CSC, Bro. Bertrand Nee Wayoe CSC, Fr. Vijay Amirtharaj CSC and Bro. Jonathan Beebe CSC. On behalf of the brothers of Holy Cross, India, I congratulate the new superior general and his team. CONGRATULATIONS!!!

Faternally Yours
Bro. John Joseph CSC

MY SECOND HOME

Bro. Chacko V. Andrews

'It is the art of helping the young people to completeness, leading a young person away from ignorance and disorder'.

– Basil Anthony Moreau.
Founder of Holy Cross

It gives me an immense joy to pen down a few lines for the newly launched newsletter 'Drizzle'. Jeevan Jyothi Industrial Training Institute always remain close to my heart. I was appointed at JJITI in the year 2011 and had continued till 2016. Thereafter, I was asked to go to Salem to be an administrator in one of the prestigious schools in the locality. After having served there for few years God has brought me back to this place to bat again in this green field. The environment, the ambiance, the ministry that I do gives me a sense of satisfaction and meaning to my religious life. Though, it is my second batting in the field of Honavar, I find more content and joy in serving the students whose parents are economically strained.

Honavar is not a garden of Gethsemane to sweat profusely instead it's a beautiful landscape of God's paradise to live and work for God's kingdom. Living at the bank of Saravathi, smooth, soft, light water gives life to my aging eyes. It is always pleasant to see the beauty of God's creation through the lens of love. The Drizzling and the continuous rainfall for about six months (May to October) not only makes the surrounding green; our life too. I was able to see with my stripped eye the low tide and high tide (spring tide & Neap tide). We are also able to witness Sun rise and Sun set from the same place. The beauty of Honavar can be described more poetically using metaphor and simile but above all my love for the rural students and educating them to be a greater personality keeps me going forward.

'Every child should have the opportunity to receive a quality education.' says Bill Frist. JJITI focuses on quality education to the students who are entrusted to our care. No child is bad; no child is unskilled. The enthusiastic staffs are always accelerated with full energy to educate and find placement in renowned companies in India and abroad. The students and staffs' relationships are always cemented with love, sociability and friendliness. I am happy to hear that the Jeevan Jyothi Industrial Training Institute has decided to share their knowledge and their activities through their creative design 'Drizzle'. My sincere appreciation and congratulation to all the staff and students of JJITI for making an untiring effort to bring

out this newsletter. I, strongly believe that this newsletter not only be an information tool to the public but a means to dig out the hidden treasure buried in their subconscious mind of the students and staff. My prayers and special blessings to everyone!

- Bro. Chacko V. Andrews, C.S.C.
Administrator

JEEVAN JYOTHI I.T.I, HONAVAR ANNUAL REPORT-2021-2022

It gives me an immense joy to share with you the academic report for the academic year 2021-22. I would like to thank God for His bountiful blessings on this institution for the past few decades. I am grateful to the brothers of holy cross for their tremendous trust and confidence on me to lead this institution and taking her to the greater heights.

Mr. Bastyanv D' Costa

Here is the annual report which would highlight the academic and non-academic activities taken place in the campus during the year 2021-22.

One more year added to the successful journey of thirty-eight years in imparting education and life skills by Jeevan Jyothi Industrial Training Institute efficiently run by the society of the brothers of holy cross. We are proud and privileged to generously contribute our services in the development of students and Nation. Educating rural students is our prime motto. The students who study in our institute are mostly from interior villages. It always gives joy when we work for the economically deprived section of the society. Nevertheless, the students are very skilled and talented in various fields.

The academic year began on 4th October 2021. We started the academic year with the 65 students in following trades. In first year MMV we had 10 students, in fitter-4 in electrician-15 in Mechanic Diese-04, and 08 in Computer Operator and Programming Assistant (COPA) and in second year MMV -11, Electrician-10 Fitter-03, With the dedicated and committed teaching staff with vision oriented young minds the academic year sailed smoothly without any difficulty. The new management Bro. Chacko V. Andrews csc and Bro. Nelson D'Souza csc were welcomed by the staff and students to guide and support us in educating the students. Under their leadership and guidance, we had started our academic year with new zeal and flaming enthusiasm.

Events & Activities

HIV Awareness & Blood donation Programme:

HIV Awareness & Blood donation Programme was conducted in our institute on 31-08-2021. Mr. Antony Lopes the Public Relation Officer of St. Ignatius hospital, Honavar spoke about the HIV disease and its awareness.

He explained What is HIV, how it spread? What are the precautionary measures to be taken to prevent this disease etc. He presented with various slide presentation. He also spoke about the importance of blood donation to our students.

Teachers Day

The teacher's day was celebrated on 5th Sep 2021 on the remembrance of birthday of former president of India Dr. Sarvapalli Radhakrishnan. The day was graced by our Vicariate superior Rev.Bro. Santhosh CSC. The farewell programme was organized for the outgoing Director & Administrator Bro. Gnanasekaran and to Bro. Paul Parmar csc. The students had conducted various games for the teachers.

Children's day

The children's day was celebrated on 14th Nov 2021 in our institute commemorating the Birthday of Pt. Jawaharlal Nehru, the first prime minister of India. The day was filled with fun and frolic. Cricket match was organized in our campus. Each trade had participated and MMV -II-year students were the winners.

Campus Interview

Jeevan Jyothi had sent forty nine students for the exams and among them forty six students were passed. To build the future of these 46 students on 04th December-2021 TOYOTA ENGINE PVT LTD, Jigani, Bangalore -in collaboration with

our Jeevan Jyothi ITI had conducted campus interview for our students as well as to our nearby ITI students and diploma holder in our campus. In this interview from our ITI 39 students were selected for the jobs. To place another 7 students, they were sent to Bell seal Valves Company, Udupi for the interview and they were selected for the jobs and we are proud and happy to say that we had given 100% placement for our students and the promise made to our parents were fulfilled gloriously.

Christmas Celebration

The joy of Christmas was celebrated in our campus on 23.12.2021. This day was blessed by the Chaplin of St. Ignatius nursing college

and hospital Rev. Fr. Edwin Monis. He gave the message as today's youth should have patience, commitment and dedication to achieve success. Our students sang carol songs and performed a skit on Christmas pay.

Volley Ball match

To encourage the students with the spirit of various sports, JJITI had conducted house wise volley ball match. All the three houses had participated enthusiastically. The true spirit of sportsmanship was exhibited by the students in the field where they all played as a professional player. St. Joseph's house emerged as a winner. Thanks to the teachers who had organized the event.

Cricket Match

Cricket match was yet another thrilling game played by our college students on 5th February 2022. The match was organized between the houses. Once again St. Joseph's house team bagged the first prize.

Principal Birthday Celebration

The Birthday celebration of our beloved Principal Mr. Bastyanv D' Costa was celebrated on 11.01.2022. It was his 50th Birthday. The celebration was organized in a small scale with rich heart of the students and teachers. The cake was cut and shared by the birthday celebrant and prayers and blessings were showered on him. I once again thank the management, teachers, parents and my dear loving students for their love and cooperation all through the year 2021-22. God bless us. Thank You

- Mr. Bastyanv D' Costa D.M.E
Principal

GRATITUDE TO JJITI

Hi everyone!

I am Nishan Naik, I am here to share with you about my college JEEVAN JYOTHI I.T.I., Honnavar where I have studied for the past 2 years in electrician trade. I feel that this is nice pick in my life. I truly spirited to study and learn a lot from the teachers and management of this great institution. In fact, this institution is a turning point in my

life. The college offers five trades to the students namely 1. Mechanical Motor Vehicle 2. Mechanical Diesel 3. Fitter 4. Computer Operator and Programming Assistant (COPA), 5. Automobile. All these trades are taught to us by well qualified teachers with more efficient skills and techniques. The principle of this college tries various ways and means to find suitable and comfortable job for the students. Besides, he is a wonderful motivator, a good guide and student friendly personality. The vice-principal of the college is a well discipline master who is always teaches values and morals to the students. He grooms and forms our life with good attitude. He is very friendly towards students, teachers and supportive staff.

This college which is run by THE BROTHERS OF HOLY CROSS support us in all the ways possible. I greatly remember the management for providing a good ambience and good infrastructure, well equipped class rooms, computer lab, practical rooms to do a researchful studies. Their simply life style and friendly nature conquer the hearts of the students. We are grateful to The Brothers of Holy Cross for their great service and generosity.

Now, about electrician class which I studied for 2 years. We have 5 subjects like Trade practical, Trade theory, workshop calculations and science, Engineering drawing, employability skills. Trade practical & trade theory is taught by our own efficient teachers.

The class teacher Mrs. Veena G. a pleasing personality, good human being and student-oriented teacher taught us electrician. Workshop calculations and science was taught by Mr. Sunil who helps students to solve calculation part easily. Engineering drawing and electrical circuits was taught by Mr. Xavier. Employability skills was taught by Mrs. Sheela who always prepare the students to face the new world. Through her teaching she taught us how to face the panel of employers in an interview. As I move out of this great institution a lot of sweet memories floating in my mind like waves of Sharavati river. As I was asked to restrict my writings with minimum words, I load on my shoulder all the sweet memories to cherish them every day of my life.

Once again, I am grateful to Jeevan Jyothi Industrial Training Institute, management and staff for playing a vital role in my life and shaping me to be a good personality in the society.

With grateful heart

Student. Nishan Naik,
Electrician- II year

JOB OPPORTUNITIES OF ELECTRICIAN

An Electrician is a trade specializing in electrical wiring of buildings, transmission lines stationary machines and related equipment.

- Electrician in local electricity boards, railways, telephone department, airport and other government and semi – government establishments
- Electrician in factories to install, test and maintain electrical equipment in auditorium and cinema halls.
- Winder of electrical motors in winding shops.
- Electrical appliances repair in electrical shops.

M.M.V – I Year

NATIONAL DOCTORS DAY

National Doctor's Day is observed on July 1 in the memory of Dr. Bidhan Roy, the former Chief Minister of Bengal, who was known for his selfless service to humanity. The day commemorated by Indian Medical Association (IMA), celebrates all doctors and healthcare workers who have been tirelessly serving people by risking their own lives. Dr. Roy was born on July 1, 1882, and passed away on the same day in 1962. It has been celebrated across the nation every year since 1991. The theme this year is 'Family doctors on the front line.'

Doctors play a crucial role in our society. They devote their lives to treating and helping patients with a speedy recovery from illness or any other health conditions. Doctors help us live life better. The day honours the contributions made by the doctors and healthcare professionals, along with the numerous sacrifices they have made to save millions of lives. Each year a new theme is given.

For 2022, the theme for National Doctor's Day is "Family Doctors on the Front Line."

Doctors not only treat and heal patients but also educate and prepare future generations of doctors in the nation. There are doctors who provide free medical services to the poor and underprivileged. Many have lost their lives during the Covid-19 pandemic contracting the illness while treating patients. As India celebrates the Doctors Day, the Jeevan Jyothi I.T.I proudly acknowledges the great services done by the doctors during the dark clouds of Covid-19. When all of us were self-imprisoned in our houses out of fear, worry and stressful it was only the doctors, nursed and health care workers who stood as soldiers to protect and save the lives of the people in the world.

We greatly remember the doctors who had sacrificed their lives falling onto the sword of Covid-19. As we celebrate the National Doctors Day, let us respect every doctor who does this noble profession. Hail Doctors!

Student. Ronald Anthun Rodriques
Electrician- II Year

INTERNATIONAL PLASTIC BAG FREE DAY

International Plastic Bag Free Day, celebrated on July 3, is a global initiative that aims to eliminate the use of plastic bags. Plastic bags may seem like a grocery shopping convenience, but they are also a huge strain on the environment. It can take up to 500 years for plastic bags to disintegrate, so they make up a large portion of what stays in our landfills and pollutes our waterways.

History of international plastic bag free day

For most of our history, single-use products were blasphemous. But through the end of the Industrial Revolution and into the modern era, plastic became a cheap and plentiful resource. Plastic bags are just one perfect example. From birth to ban, the history of the plastic bag has impacted our world.

In 1933, polyethylene, the most commonly used plastic, was created by accident at a chemical plant in Northwich, England. While polyethylene had been created in small batches before, this was the first synthesis of the material that was industrially practical, and it was initially used in secret by the British military during World War II.

By 1965, the one-piece polyethylene shopping bag was patented by the Swedish company Coloplast. Designed by engineer Sten Gustaf Thulin, the plastic bag quickly begins to replace cloth and plastic in Europe. After controlling 80 percent of the bag market in Europe, plastic bags went abroad and were widely introduced to the United States in 1979. Plastic companies began to aggressively market their product as superior to paper and reusable bags. It wasn't until 1997 that sailor and researcher Charles Moore discovered the Great Pacific Garbage Patch, the largest of several gyres in the world's oceans where immense amounts of plastic waste have accumulated, threatening marine life. It was discovered that plastic bags are notorious for killing sea turtles, which mistakenly think they are jellyfish and eat them.

Bangladesh become the first country in the world to implement a ban on thin plastic bags in 2002 after it was found that plastic bags played a key role in clogging drainage systems during disastrous flooding. Other countries quickly followed suit, such as South Africa, Rwanda, China, Australia and Italy. International Plastic Bag Free Day looks for safer alternatives to demonstrate that a world without the use of so much plastic is possible.

It is part of the Break Free from Plastic Movement, which began in September 2016, and has been joined by nearly 1,500 different organizations. The movement is looking for solutions to the plastic pollution crisis, to make the planet safer for humans, the environment and wildlife.
